

# SELLOS HIDRAULICOS

## TIPO ST

Los sellos limpiadores tipo ST son moldeados con precisión, fabricados con uretano 90A. Son lo suficientemente flexibles como para encajar fácilmente en una ranura y hacer la limpieza de la barra. La opción "V" señala que esta fabricado con fluorocarbono.

### INFORMACION DE LOS SELLOS

MATERIAL	URETANO / FLUOROCARBON
RANGO DE TEMPERATURA	URETANO: -65° a +220° F FLUOROCARBON: -20° a +400° F
